Jon I spoke with scott today and they think it will take to mid to end of next week. There are a lot of little things that have to be done to generate a final document with all the changes that have been made. Scott should be sending you an email. I have not spoken to Gary yet.

Carrie, if they could get it to Robert tomorrow that would be very, very helpful as he has to go through the docs to prepare an Admin Record Index. If not then Monday is probably the drop dead date, as they need to be on-line and in the repositories by Wed.

If that's going to be a problem, please let me know as soon as possible (Again, on Friday and Monday I can be reached at my cell [REDACTED])

Thanks, Jon

John, Carrie, the FS letter will be signed in a few minutes. I went with plan B, meaning EPA will just re-do the ARARs table in the ROD and not worry about the FS version.

So the only thing Gary needs to do is fix the date on the cover page (August 2013), get rid of the redline/strikeout and get it to me and Robert Keating (cc'd above) as soon as possible.

Also when B&C has their final docs ready, please send me the link and, again, cc Robert Keating .

Lastly, I'll need a name/address/phone number for the bills from the newspaper and stenographer. Please send that to me and Natalie Loney (cc'd above).

I'm out of the office tomorrow and Monday (naturally), but can be reached at [REDACTED] .

Jon

Ps, the meeting is going to be held on the 28th at 7:00pm at the Tremley Point Rec Building, 2907 Tremley Point Road.
